

MEET CAPELLA

The Guided Category Strategy Creator[®]

Powered by the proven 5i[®] Category Management process for best practice strategy creation, Capella is the latest thinking in software driven strategic procurement. Break free from traditional templates and dependence upon good application – Capella is the new way procurement teams can build breakthrough category management strategies.

Let Capella lead the way, or switch to Advanced Practitioner mode and take full control of your strategy.

Capella's guided category strategy creator means anyone in your team can become an expert category management practitioner. Capella intelligently guides you through the 5i[®] process and works for simple areas of spend right up to your most complex categories.

It distills our experience of delivering high-impact category management into an intelligent application, making strategic decision making easy.

Capella will lead you to the optimum strategy that will deliver your objectives, whether they are focused on cost, sustainability, innovation, risk, or other value from the supply base.
